month and placed in the hands of those coming into the State in search of homes. Our agent at Ogden goes into the cars and places a copy in the hands of each head of a family and single person. The "HOME SEEKER" is the best advertising medium ever offered to those who wish to extend their business to new settlers. To hotel men and real estate agents it is invaluable. An advertisement in an ordinary publication, promiscuously distributed, does not meet with more than one customer out of every huncation, promiscuously distributed, does not meet with more than one customer out of every hundred people which it reaches. The "HOME SEEKER" is distributed only to those who are coming here with a desire of buying immediately. Not a single copy is wasted. We have received a solid support from the business community of the northern half of the State. The continuous publication of the "HOME SEEKER", is an assured fact. More land can be sold by an advertisement with us than any other way known. We shall make the "HOME SEEKER" subserve the best interests of the northern half of the State. It is issued to promote immigration and to locate the settlers in the northern counties. We ask the support of the business men of that region which we are laboring to build up. Our work is important to every branch of business. If you want to help yourselves, help us.

quaws, guarded by four soldiers, passed brough this place this morning, going by rail to the San Carlos reservation. The officer in charge explained that they were Chiracahua squaws, part of Geronimo's er stated that they had a good outfit, both aving fine guns and a large quantity of mmunition when captured. The citizens ranted to shoot them, but the soldiers preatened to kill the first man who fired a hot. I want to say one word to your eaders. I have been in these mountains and through these Indian raids for sever years, and to my personal knowledge the quaws are more cruel and bloodthirsty han the bucks. When Jim Cooney and Chick were killed by the Mogollons in 1880, parties hidden saw squaws stick pieces of wood into their bowels while alive, then crush their heads to a jelly with ocks. I myself saw a bunch of twelv killed near Hillsboro, whom the squaw had literally hacked to pieces with knives Any man who would not as quickly kill a quaw as a buck or a rattlesnake knows

TROOPS ORDERED TO THE SCENE OF DISTURB-ANCE. Washington, June 22d.-News was reeived at the War Department late this ifternoon, to the effect that the difficulty with the Chevenne Indians is becoming very serious. General Auger has ordered our companies of the Fifth Cavalry to go o the scene of disturbance, in addition to e companies previously sent to Fort Reno. This makes ten companies at Fort Reno, and three additional companies are neld in readiness to go at a moment's no ice. Auger recommends the appointment f a Commission to ascertain the cause of

The Southern Chevennes are located in the western portion of the Territory. The country is level and devoid of trees, except along the streams. Owing to its great extent, it is very easy for the Indians to keep out of the way of the troops It is believed here that the Indi ans are well supplied with arms and ammunition. The last trouble with the Cheyennes occured about nine years ago, and continued for more than a year. was caused by the Indians of that tribe massacreing a portion of a family moving overland from Georgia. The massacre occurred in Kansas. The father, mother and daughter were killed, and the four remainng children taken captive. The daughter saying that Field never spoke to him of who was killed, before she was captured took the life of an Indian with an ax as e attempted to get into the wagon in which he children were gathered. Prior to this nassacre the Cheyennes became unfriendly owards the whites. A number of mer isguised as Indians, had burned a bridge pose of stopping a train, that they might After the destruction of the oridge soldiers were sent to capture the men uplicated. An officer chanced one day to ee an Indian standing alone at a distance He drew nearer, fired and killed him. The Indian was a son of Lone Wolf, the great onies were killed above his grave. Though Lone Wolf himself did not participate in the outbreak which followed his son's leath, it was thought that the shooting of he young Indian greatly influenced the ibe to go on the warpath. The massacre of the Georgia family followed, and one year's fighting was the result.

Indian Affairs in Southern Oregon. Washington, June 22d.—Gen. Pope has ansmitted to the War Department an account of the killing of a Piute Indian named Joe, by two white men, in Happy Valley, Oregon. In commenting upon the illing, Gen. Pope again invites attention o the white and Indian outrages which are creasing in frequency in the southern part of Oregon. He says the Piutes, havg no reservation, are willing to go to and quent that country for sustenance by unting and fishing. The state of affairs ow existing is certain to grow worse, and ust finally culminate in open hostilities, nless a reservation is assigned these In ians, and they are placed on it. LOCAL INTELLIGENCE.

The New Postoffice Site.

A large meeting of up-town citizens was held yesterday afternoon at the reading room of the Capital Hotel, for the purpose of indorsing the action of Mayor Brown Postmaster Green and W. F. Knox, the Commissioners who selected the northeast | F corner of Seventh and K streets as a site for the proposed Government building The meeting was called to order by William Boyne. He said the object for which it wa called was to overcome the petition which had been circulated and signed by man down-town merchants, and had been for warded to Washington for the purpose upsetting the efforts of the Commission who have recommended a location that was central, and by far the very best that could have been selected. No man, he claimed, who was unprejudiced, unbiase and who had no property interests that would be affected, would say but that the was central, and at the intersection of the principal thoroughfare and best cross-stree

The meeting was organized by electing James McGuire Chairman and William Boyne Secretary. On assuming the duties of the Chair Mr McGuire said that the action of certain in dividuals in the past few days, in this mat ter, had rendered it necessary for the peopl to rise in their might and indorse the action

of the Commissioners.
E. G. Blessing said he thought a petition should be forwarded to the Secretary of the by the Commissioners, and indorsing the action of the latter. It should be accom panied by a map of Sacramento city, show ing the location of all the principal business houses, hotels, public buildings, lines of street railways, etc. He said the petition would receive the signatures of nine-tenths of the people of the city. The committee e claimed, composed as it was of the Mayor, an ex-Mayor and an ex-Second Trustee, was one in which the entire people had confidence, and their action in this matter had met with general approval. The citizens of Sacramento had the utmost con fidence in the judgment, integrity and hon

esty of those gentlemen. Mr. McGuire said the Commissioners had forwarded to the Secretary of the Treasury a rough sketch of the city, but in face of the fact that a remonstrance had also been sent forward by Mr. Bailey and others, h deemed it highly important that a goo map of the city, showing the proposed le the city, showing the proposed le Washington, which would be a good facto towards sustaining the judgment of the Commission. He said Mr. Bailey's obje was not so much to effect a sale of h property as it was to secure delay, and thu retain a good tenant for months, perhaps years, to come. The present postoffice building belonged to Mr. Bailey, for which the United States paid him a princely

Israel Luce said he thought a committee should be appointed to draft petitions, resolutions, etc. Make them so plain, and accompany them with a map, that wil cause the authorities at Washington to fully realize and understand it as we do here in Sacramento. Our city is continu ally growing, increasing each year in population and wealth. We all know that we cannot go further west, nor further north and that all our improvements and growth will be in the southern and eastern por tions. To-day the location selected by the Commissioners is central, but in a few more years Tenth street will be the principal cross street of the city.

William Boyne said he was in favor o such a committee, and also one on tele grams. He thought the Secretary of the Treasury should be telegraphed immediately and requested not to consider the remonstrance now on the way to Washing- Bernardino county. Principal place of ton until the mass of the people, who could be heard from. He thought petitions should be immediately circulate throughout the city. He moved that a Chair to confer with the Commissioners. draft resolutions and draw up petitions

The Chair appointed as such committee William Boyne, E. G. Blessing, C. H. Krebs, Israel Luce and S. S. Beede. John Ochsner thought this was a matter that would not admit of the slightest delay. He recommended that the committee instructed to meet immediately after the of business, San Francisco. Directorsclose of the meeting and enter upon the

duties assigned them. Mr. McGuire was of the opinion that telegraphing was unnecessary. Mr. Bailey did not own everybody in Washington. The acts of the Commissioners were official and would not be set aside and entirely ig nored, simply because it did not please certain individual who was in reality a

The question of having a suitable map drawn to accompany the petition was discussed at some length and a committee composed of M. E. Hornlein, Peter Newman and John Ochsner appointed for that

purpose.

The Turn Bezirk.

At 9:30 A. M. yesterday the various Turnereins formed in line at Turner Hall, and headed by the Hussar Band merched to Richmond Grove, where the various gymnastic and athletic exercises commenced on the preceding day were resumed at 11:30 row morning by the overland train. clock. The number of contestants was excess of that of any former year, and the efficiency of those engaging was equal to if not better than that of three years ago. The climbing and gymnastic exercises were very superior, and won from the vast assemblage many warm rounds of applause. The vaulting, jumping and feats of strength were all good and many fine records were nade. The attendance at the grove during

The labor troubles in Philadelphia have nearly all been adjusted. With two or three exceptions, the contention between master and worker in the large establishments has ended. Their relations are now satisfactory, and likely to remain so during the season. There have been about 200 strikes, extending into almost every branch f industry, since last December, which have been settled in most cases by the hands resuming work at the old prices or by the importation of labor.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately-flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Handreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
